Skills

- React Js
- Hypertext Markup Language (HTML)
- Cascading Style Sheet (CSS)
- Vanilla Javascript
- Version Control (e.g Git)
- Bootstrap
- SCSS

Projects

IP Address Tracker

The goal is to build out an IP tracker app and with a nice UI displaying the map and the Location detail's. I used IP Geolocation API by IPify to generate IP address location and LeafletJS to generate the map...developed with ReactJs

Quiz app

This project is built with javascript (ES6)..with a nice UI. fetched questions from an external API and displayed it with the multiple choice answer..

Made use of local storage to store the scores and username of users..and filtered out the top five scores on the high score interface.
